

Weed Razer Express - 30 inch Aquatic Vegetation Cutter

Uses

- Cutting Lake weeds and Pond weeds is simple using the Weed Razer Express
- Cuts in narrow places between docks and next to boats
- Easiest tool for thick patches of vegetation like cattails
- Throw out up to 30 feet and cut 30 inch path as you retrieve it

How to use

- Throw Weed Razer Express out over area to be cleared
- Pull it back with short hard jerking motions
- Repeat as needed

The Weed Razer Express is light weight and cuts a 30" path, making it ideal for cutting in tight places and handling the thickest stands of vegetation like cattails. At just over 6 pounds, the Weed Razer Express can be used by even the most petite in stature.

Safety Instructions

- The Weed Razer Express is to be operated by hand only. Do not pull the Weed Razer Express behind a boat, or any other machine driven equipment.
- Do not use with children in immediate area.
- Do not use the Weed Razer Express when humans and/or animals are present within 100 feet from the launch point.
- Use protective gloves (thick leather gloves recommended) while handling the Weed Razer Express.
- Do not place or use near electrical wires or cords.
- Never touch the sharp edges of the blades with bare hands at any time.
- Leave blade covers on the cutting edges when not in use.
- Check all bolts, connections, and rope before use.

- Avoid areas with underwater structures.
- When not in use, store in a safe location out of the reach of children.
